

Good-bye BGAN...

Hello GSAN!

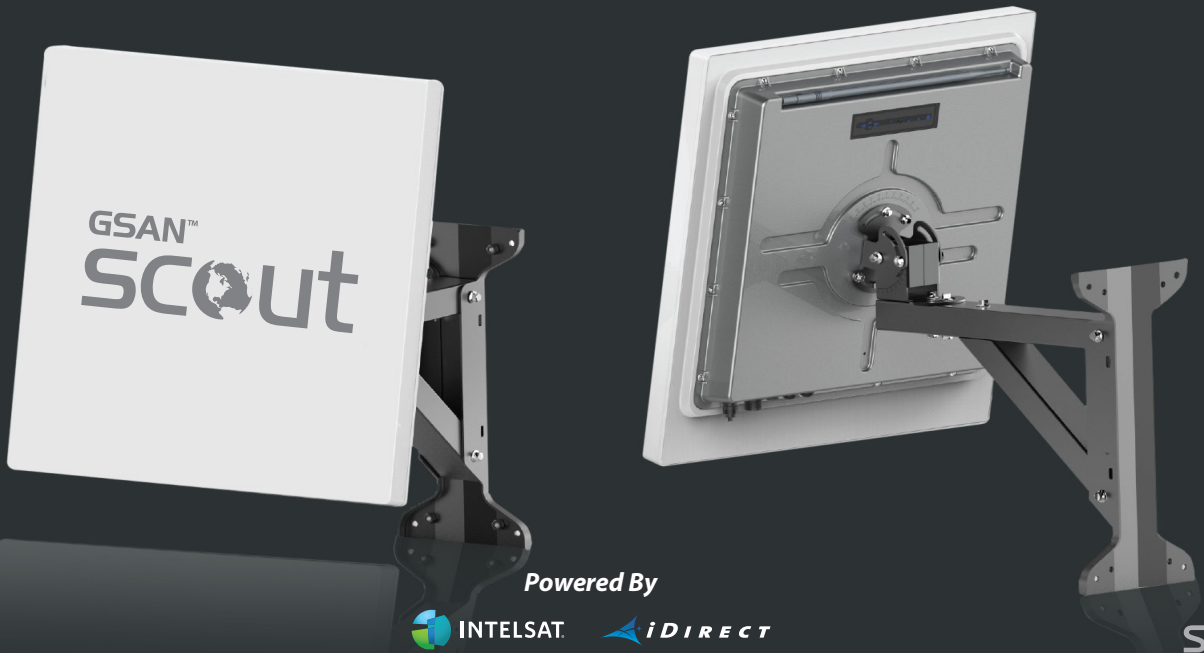

Meet the BGAN-Killer...GSAN is now selling its revolutionary Scout line-up of Flat Panel Antennas with 30x the speed of comparable BGAN terminals!

GSAN™
Scout^F

- **30x Faster than BGAN**
- 23" Flat Panel Array Antenna
- Fixed/Semi-Fixed Deployment
- Easy-Point Assisted Alignment
- Integrated iDirect X7 Modem
- Built-in Wifi / BUC / LNB

See reverse for full specifications.

The Scout-F is the fixed/semi-fixed version of the new Scout family of flat panel array antennas from GSAN. Easy-Point Assisted Alignment makes setup a breeze.

Antenna Specifications

The **Scout-F** is the fixed/semi-fixed version of the new Scout family of flat panel array antennas from GSAN. Easy-Point Assisted Alignment makes setup a breeze.

Antenna Type	Ku band Semi/Fixed Flat Panel Antenna
Frequency Range Tx	13.75~14.5GHz
Frequency Range Rx	10.95~12.75.GHz
Polarization	Linear polarization
Receiving Gain	35.5 dBi
Transmitting Gain	36 dBi
First Sidelobe	≤-15dB
Cross Polarization isolation	≥35dB
Tx/Rx Polarization isolation	≥85dB
BUC mounted on Panel	3W (8W Optional)
Antenna Power Resistance	≥100W
Power Supply	AC 90-240V (DC optional)
Antenna Panel Size/Weight	575mm × 575mm × 35mm @ 11lbs.
Total Terminal Weight (including Panel, Modem,BUC, LNB, Power Supply)	23.5 lbs / 10.6 kg
Wind (Operational)	55 Mph
Wind(Survival)	72 Mph
Ingress Protection	IP-66
Operating Environment Temperature	-25°C to +65°C
